Scoring

Suzie gave Jarrod a list. Kudos to SNDR for a great race. Kudos to Coyotes for great communication. SNDR scoring chute was too close to the trailer. 94 pings had to be removed after. Coyotes moved the chute down and only 4 bad pings. 3 for sweepers. 1 from another racer. She needs a head count for who worked the races. Points will be fixed during the night series. She is putting together a diagram on what to do with the scoring chute. Jarrod suggests just getting the chute as far away from the trailer as possible.
